Violently Regurgitating Chunks Of Bloody Skin  
Acidic Gastric Sludge  
Dissolves Your Stomach From Within  
Your Throat Becomes Swollen,  
Irritated And Sore  
Inducing Regurgitation Creates The Vomit Gore

Your Tonsils Are Infected And Rotten  
Your Throat Is A Mutilated Mess  
You Spew Out The Sour Secretions

Keep It For Me To Digest

Throwing Up Your Stomach Lining  
Autodigest Your Greasy Intestines  
Rotting Away Internally  
Producing Internal Fermentation  
Bleeding Through Your Nose And Mouth  
Regurgitate Vomit Gore  
Sickening Vile Vomit  
Leaves Your Throat Red And Sore
