Eating Away My Flesh  
I Don't Know What It Is  
Spreading So Rapidly  
The Pain Is Too Much For Me

Something Sick  
Disfiguring Me  
Forming Lesions  
What Can It Be

It Started With An Infected Cut  
And Now It's Taking Over  
Oozing Pus And Yellow Excretions  
This Deadly Flesh Devourer

Blistering Skin, It Now Begins To Crack  
Peeling Flesh, Turning Red And Black

Metastatic Abscesses

Growing On My Skin  
Bacteria Flowing Through My Bloodstream  
Infecting Vital Organs

Covered With Rotting Flesh  
A Horrid Mutation  
Innards Are Shriveling  
Disrupting Their Functions  
Nausea Induces Repetitive Vomiting  
Throwing Up Insides, My Body Weakening

Nerves Are Dead, I Can't Feel Pain  
I Feel My Heart Begin To Slow  
My Eyes Roll Back Inside My Head  
My Entire Skin My Body Sheds
