So kiss me goodnight  
Walk through my frontdoor  
Get in your car  
And head back home to florence  
And she said kiss me goodnight  
Walk through my front door  
Get in your car  
And head back home young man  
And I'll be here you get back

You found the key to my heart  
A little message that you wrote on birch park  
And I hope you know I hold it dear  
And sometimes the things I try to say  
Don't come out the right way  
Maybe sometime next year  
I'll lose this fear

So kiss me goodnight  
Walk through my frontdoor  
Get in your car  
And head back home to florence  
And she said kiss me goodnight  
Walk through my front door  
Get in your car  
And head back home young man  
And I'll be here you get back

So kiss me goodnight  
Walk through my frontdoor  
Get in your car  
And head back home to florence  
And she said kiss me goodnight  
Walk through my front door  
Get in your car  
And head back home young man  
And I'll be here you get back
