

## Sequoyah Prep School "I Saw You Walking"

Visit "[I Saw You Walking](#)" on MotoLyrics.com

I saw you walking down the street  
And I recognized your face from a long time ago  
Talked to some friends and I looked you up  
When I found you sure enough, I knew I could never let  
you go

And the sun's going down on the west side of our town  
So why don't you hop in my car and we could drive,  
drive, drive around  
I want to see you smile, I want to see you cry  
So come on and love me for awhile, and you could be  
my baby tonight

It's like I lose my concentration  
I don't know what to say, when I get around you  
But I can say without hesitation, that I love feeling this  
way  
And I feel this way for you

And the sun's going down on the west side of our town  
So why don't you hop in my car and we could drive,  
drive, drive around  
I want to see you smile, I want to see you cry  
So come on and love me for awhile, and you could be  
my baby tonight

And the sun's going down on the west side of our town  
So why don't you hop in my car and we could ride, ride,  
ride around  
I want to see you smile, I want to see you cry  
So come on and love me for awhile, cause you could be  
my baby tonight
