Hanging on, dazzle confound, The glorious metal wall  
Look all around inwardly  
Marvelous, strange reverie, mixing the fascination  
Fallen and scattered

Remain attracting me, shining through the peaceful  
land  
Out sail within my mind, free from anxiety

The surf is dumping fury, throw the frost away for long  
long time  
The burning flame around me, immortal silence

Spiritless, misted way, dark cold night, cold as ice  
Spirit closing  
Stand alone, old skeleton, it will be melted your heart  
Spread to forever

Dream embezzle myself, linking to the dark cold night  
Shinning on wonderland, transmit from my heart

Profounded depths of your eyes, try to stop your  
footstep for a while  
Try to find a way out, immortal silence

[Solo]

Remain attracting me...
