Stupidly, error too, wrongdoing don't forgive  
Quit body, love and hate, tears will wash shameful blot  
Fearless, pretend to moan, fate is sad

[Chorus:]

Suddenly, fire lotus just burning into darkness  
That is over destroy being deadline mean to live  
forever

Being with loneliness quietly, obstinate take place  
Through the end of the way

[Solo]

Angry, stifle sigh, tear arms engrave apart  
Through valley, pass river, across the rage of chute  
Forget... devotion with tears, shape of return

The sea of cloud falling into diffusion, purity from sin  
All my heart was lost beside the border  
The evil surge brim Holding the terrible space of flame  
Carry on the domain of peaceful silence

There's no limit in love or hate  
It was easy destroying  
No matter what encroached on us  
Besiege my mind, nothing above...

[Solo]

[Chorus]
