This time we are persistent and strong, whether
conceal feel of renascence
We are careful shadow of lonely, feel the secret fearful
majestic farewell

Brightness just shine the holy night, ripple of estuary
Eyes of saintliness sparkle gentle and lovely

Meditate on the ocean turn over and over again
Consciousness is burning to the cradle of the new
world

Walk quickly puppet, injured wild beast, heartless
devil, ballet
Prisoner of soul, true fatalize, slake with tears, lick up

Heap and make a contribution, expel sin and avarice
Free from anxiety and sadness, run high to welkin

[Solo]

Haze spring out to sky
Mist pass through sea of heaven

Moonlight rush down fascinating gloss, dreaming of
eternal universe
Clear and dark compare to each other, chaste starlit
night lacerate cloudy sky night

The tiny gold dust ambiguous to flashing magically
The sadly teardrops filled with glamour spark of light

Meditate on the ocean turn over and over again...

Foggy great wall, trample in sludge, emaciation
increasingly, panic
Spirit banished, forget in island, cruel laugh grimly,
defeat

Heap and make a contribution...

Listen to the eternal ring, flow in precious new breath

Conceal in deep of eternal life, perfect intuition

Ah! A wild laughter, panic-stricken, majestic farewell...
