Turn into in great disorder, ascendancy reflect  
Unreasonable wasteful without fear  
Desire expends infinitely, no one can escape  
All over bramble nearly abyss of Sheol

Turn over! The darkness give me new life  
Tremble and conceit  
Feel sorrow! night come with me to break out  
Just sink into the dead sea

Creature just like a wither tree, stupid and stubborn to  
posterity  
Samsara circle around eternity, no eternal life

Criticize the evil sinner, despise the base soul  
Hardships time is fleeting, I don't care  
Tired of the unpeaceful life, detest obscuration  
Die in under earth get reborn again

Creature just like a meditation with purity induce to  
comfort  
Samsara soothe my heart and my soul, suddenly fade  
away

[Solo]

Red is dream of burning fire, praise to death and also  
praise life  
Light to fire those fierce torches, light of secret just so  
faraway

Turn over! The darkness gives me new life...
