

## Seraphim "Song Of Farewell"

Visit "[Song Of Farewell](#)" on MotoLyrics.com

Memory dies in darkness, falling down teardrops in  
your eyes  
Pass emotion in wandering, flow in heart of distress

Ah  
The fall of serious thought

Suddenly defeatd, heartless regret wore out your fate  
A fissure affection is passing away, entangle dying

Try harder, forget and forgive, a tragic destiny

Empty afflicted feeling, a torture of heart answered  
from hell  
Unable to riddle out, cooling streaming hot mind

Ah  
Nothing to depend upon

Passionate in a trice, love, hate, regret, a violent storm  
way  
The dreaming illusion's time is passing by, no more  
attachment
