Life is rage and surge perpetually, downfall into sea of dark

The frozen body feels so sad secretly, the teardrops' answer

Blazing sun's crying, eternity had faded away

I see the pride of twilight, sail across a blue sea  
shinning in the sky

When can I throw indifference away, far away from this world,  
Buried in forgotten tales

Bone ashes survive on fire trembling, the evil spirit  
cruelly

Massacre in blood

The burning flame had set me free, brush past my ears  
I'd

Heard the voice of the devil's cry

Life is growing up from night & day, long for corp the  
love and hope

Firebrand in hand is burning my blood, weary in body  
and mind

Ah

Memorize, the running forlorn hope, alone

Look around the dangerous destiny

Freedom fly beneath the pride of twilight, with a joyous  
heart

Standing on the top of sign

Admire the worship of heart and soul, time is passing  
by into

Ordinary lifetime

Inbreaking night breeze had striking move on  
I pray for promise, courage of your soul

Come cross Elysium, beside rays of light

The world of ice and snow, corridor of heaven

Holy pride of twilight, glory of the God!
