I'Â'm floating higher bring the atmosphere, oh
You'Â're everything but us just disappears
Never plain like coming down from here
I wanna melt into your arms
Into the stars
Into the night and fly away

Beyond any world I'Â've ever seen
Your eyes take me
Beyond any dream I'Â'll ever dream
Your touch wakes me

Baby I just need to read you in
Feel my body call my love again
Let me get lost inside your kiss
Oh, love me senseless
Oh, love me senseless

Don'Â't know how I live without your love
I only know I never lived enough I know
Now I think I almost feel too much
I just wanna let it flow let it go
Into the blue and fly with you

Beyond any world I'Â've ever seen
Your eyes take me
Beyond any dream I'Â'll ever dream
Your touch wakes me

Baby I just need to read you in
Feel my body call my love again
Let me get lost inside your kiss
Oh, love me senseless
Oh, love me senseless

(Feel my song without a sound)
Feel my song without a sound
(Till I know it to be found)
Till I know it to be found
Ooooooohhhhhhhh

Beyond any world I'Â've ever seen
Your eyes take me
Beyond any dream I'Â'll ever dream
Your touch wakes me

Baby I just need to read you in
Feel my body call my love again
Let me get lost inside your kiss
Oh, love me senseless....

Beyond any world I've ever seen
Your eyes take me
Beyond any dream I'll ever dream
Your touch wakes me

Baby I just need to read you in
Feel my body call my love again
Let me get lost inside your kiss
Oh, love me senseless

Beyond any world I've ever seen, oohhh
Your eyes take me
Beyond any dream I'll ever dream
Your touch wakes me

Baby I just need to read you in
Feel my body call my love again
Let me get lost inside your kiss
Oh, love me senseless
