Your heart feels like it's been run over  
You call and ask if you can come over  
I say yes, even though I know better  
But I guess I'm hoping that you've finally left her  
You run back here to my door  
Every time that you need a friend  
Don't you know that I want to be more?  
So I keep wondering when, ooohhh

Through every tear every fear I was always here  
Open up your eyes  
And I could be everything that you really need  
Open up your, open up your eyes,  
Your eyes, your eyes  
Open up your eyes  
Mmmm, oooh

You say you don't know what you'd do without me  
That I'm the only one who cares about you  
It's hard to love someone and try to hide it  
If I said it doesn't hurt, well, I'd be lying  
There's so much that I have to give  
I want to show you what I'm feeling inside  
I hate to see it when you're hurting like this  
When I could treat you so right

Through every tear every fear I was always here  
Open up your eyes  
And I could be everything that you really need  
Open up your, open up your eyes  
Your eyes, your eyes

I would never step across the line  
And tell you what to do  
But there's only so much more that I can take  
Look at me in a different light  
Don't let me walk out of your life

Through every tear every fear I was always here  
Open up your eyes  
And I could be everything that you really need  
Open up your, open up your eyes  
Your eyes, your eyes

Open up your eyes, open up your eyes

I could be everything that you really need  
Open up your eyes...your eyes
