"Come Home for Christmas"

Visit "[Come Home for Christmas](#)" on MotoLyrics.com

Everyone's comin' for Christmas
Everyone soon will be here
And I'm calling again
Cause I've never been
Without you this time of the year

Everyone's sayin' how are you
Knowin'full well I'm not much
And presents to me
Means you here beside me
The love I'm so used to, the touch

Here in December it's hard to remember
The words of July ... that made us both cry
We've tried it apart and I know from my heart
That it's not working well ... it's just simply hell

Everyone's watchin' for Santa
But you're all I'm longin' to see
To hold you once more, just like before
Or it won't be like Christmas to me

We've tried it apart and i know from my heart
That it's not working well ... not working well

Won't you please come home for Christmas
You're all that I have in this world
You know that I'll wait, won't give up hopin'
No matter how late, the door will stay open
I'm in love with you girl
So come home for Christmas to me
