LIGHT OF MY LIFE (David Gates)

Never before have I seen the light
Things ever going wrong and now going right
And things are looser that once more tight
That's all because of you...
You got me dancing your boogie beat
You called the steps and I moved my feet
You know I'm lovin' your different drum
I like you really cause I know where it's from
Is where it's comin' from

And you're the light of my life
Shinin' down to show the way
Yes, you're the light of my life
Burnin' strong and helping me along...

If I'd never ever met you girl
I never would've seen so bright a world
This music playin' inside my head
It keeps repeating all the things that you said
Yes, all the things you said

And you're the light of my life
Shinin' down to show the way
Yes, you're the light of my life
Burnin' strong and helping me along...

Yes, you're the light of my life
Shinin' down and helping me along
Yes, you're the light of my life
Burnin' strong to show me the way
