I don't know what ya think that you're trying to prove
I don't know what ya think that I can do for you
I don't believe in who you think that I should be
Because my world is so much bigger than you see
So get all the way out of my way
You are in my way
Got a heavy love
Rollin like thunder
Comin from above
Make sure that you're under
Fallin like the rain
Burnin like fire
Got a heavy love
Do you think you're strong enough? (X3)
Why did you tell me that you wanted me to be free?
Then turn around and hold me so tight I couldn't
breathe?
Getting so angry I didn't see what'd seen
Have you forgotten that you used to love me?
All the way in every way
Got a heavy love
Rollin like thunder
Comin from above
Make sure that you're under
Fallin like the rain
Burnin like fire
Got a heavy love
Do you think you're strong enough? (X3)
To catch me when I'm fallen
Open up your heart and let it feel
You'll know my loves for real
Got a heavy love
Rollin like thunder
Comin from above
Make sure that you're under
Fallin like the rain
Burnin like fire
Got a heavy love
Do you think you're strong enough? (X3)
