### VERSE 1

When I close my eyes,  
Time seems to drift away ,  
I see all the tales and lies ,  
I want to leave , I don't want to stay.

I'm trapped inside my mind ,  
I'm lost in the sea of a broken dreams,  
Don't want to get left behind.  
I gotta do it , gotta do it for me. (repeats x4)

### CHORUS

I turned my back on the world,  
I'm walking away from all the sorrow,  
I don't care what happens today ,  
Cause I know I will always have tomorrow .  
Have tomorrow, always have tomorrow (repeats x 2)

### Verse 2

Looking at all the places,  
Trying to find the reasons why,  
I see all the empty faces,  
I'm locked in this moment and time.

Got to find the way to make it ,  
To the place where I wanted to be ,  
What was holding me back is breaking,  
I finally know , finally know that I'm free  
Finally know that I'm free (repeats x 2)

### CHORUS

I turned my back on the world,  
I'm walking away from all the sorrow,  
I don't care what happens today ,  
Cause I know I will always have tomorrow .  
Have tomorrow, always have tomorrow (repeats x 2)
