Ignite the fire you have inside, And shine the light of  
day into the night Live every moment of your life, Take  
every wrong you have and make it right When you feel  
you on your own X 2 When all your hope is gone, You  
feel u cant go on, When everything seems wrong, Just  
know that you belong. Spread the love you have inside  
Don't let the moments of your life pass you by, Cause  
you can't turn the hands of time, For every second  
there's star in the sky. When you feel you on your own x  
2(chorus repeats)
