Intro

I'd blow away

I'd blow away

Never again push me into that trap

I'm fucking you this time cos I'm watching my back.

I wish that I could save you and I wish that I could feel

If I could I would fuck you then I'd find my way.

Never will no, never will, no never will

I'd blow away!

Never again push me into that trap

I'm fucking you this time cos I'm watching my back

Never again, I'm watching my back, my back, my back

I'd blow away

I'm watching my back

I'm breaking down, I'm cracking up

I'm falling right into a hole,

I'm feeling like I want to die but you just kick me in the
eye

I'll never forget, never forget, never never again will I

break myself to be with you I Ooooh

I'm breaking down, I'm cracking up I'm falling right into
a hole I never... lie....
