I'm slowly sinking into sweet state of decadence I hear
the bottom calling me
singing in mysterious ways the world and reality
forever left behind I'm the
one with forbidden pleasures turning off my mind
nothing really matters in the
universe of frozen space relax me into the groove show
me my right place

pulsating particles in my eyes riding on the wave of
hate I gotta slow down
and forget ready to explode please save my head
nothing ever changes in the
universe of frozen space relax me into the groove show
me my right place.
