How do you get from here to there, what do you do?
Well if you want to cross the street my friend,
Here is my advice to you:
Simply walk across the street
Make sure you look both ways with care
And that is how you get from here to there!
You use your feet!

How do you get from here to there, what do you do?
Well if you want to go downtown my friend,
Here is my advice to you:
Simply climb aboard a bus,
Pay the driver man his fare
And that is how you get from here to there!
You ride the bus!
You use your feet!

How do you get from here to there, what do you do?
Well if you want to cross the ocean, my friend,
Here is my advice to you:
Simply hop aboard a plane
And go flying through the air
And that is how you get from here to there!

You take a plane!
You ride the bus!
You use your feet!

And that is how you get from here to there!
