

Sertab Erener**"Take Care Of That Smile"**

Visit "[Take Care Of That Smile](#)" on MotoLyrics.com

You gotta take care of that smile
Take care of that grin
That happening place
Right there on your face
Between your nose and your chin
You gotta take care of that smile
Take care of that grin
Take care of that smile

You gotta take care of that smile
Keep keeping it bright!
That wonderful glow
That shimmer that shows me
That you are feeling alright
You gotta take care of that smile
Take care of that grin
Take care of that smile

You're gonna need it
You're gonna wear it
Morning, noon and night
You gotta scrub it
You gotta rinse it
To keep it pearly white

You gotta take care of that smile
Each tooth is a star
And when they all shine
They tell me how fine
How fine you really are
You gotta take care that they last
For a long long while
Take care of that smile
Smile
