Verse 1:

Silence so empty
It feels like the timing isn't right
The real reason I brought you to this old place again
Is I'm leaving you tonight

Chorus 1:

Cause I gotta find me a better way
Cause I gotta find me a better way
I gotta find me a better way

Verse 2:

With all of those memories
Blowing in the wind
I know that I'll begin
To long for Charlottesville Virginia
But now,
You and I are so far out of sight
I don't know what tomorrow will be like

But I'm leaving you tonight

Chorus 2:

Cause I gotta find me a better way
Cause I gotta find me a better way
I gotta find me a better way
I gotta find me a better way

Bridge:

[Piano rocks out with a solo]

Chorus 3:

I gotta find me a better way
I gotta find me a better way
I gotta find me a better way
Cause I gotta find me a better way
I gotta find me a better way
I gotta find me a better way
Cause I gotta find me a better way
