I hope it's not a bad time
Cause I got something on my mind
It's just that I've been here so long
I can't explain girl, but I know that it's time to move on

Blew my kisses to the wind
So long, I'm gone, I think that we should just be friends
Blew my kisses to the wind
So long, be strong, cause girl you'll never see me
again

Knock Knock fallin on my knees, fallin on my knees,
Baby girl take me back please!
Knock Knock fallin on my knees, fallin on my knees,
Baby, baby girl take me back please!
Knock Knock fallin on my knees, fallin on my knees,
Baby girl take me back please!
Knock Knock fallin on my knees, fallin on my knees,
Baby, baby girl take me back please!
I said I'd love you til the end,
Well girl this is the end
No, no there's nobody else, and I don't need nobody's
help
I think I'll be fine by myself

Blew my kisses to the wind
So long, I'm gone, I think that we should just be friends
Blew my kisses to the wind
So long, be strong, cause girl you'll never see me
again

Knock Knock fallin on my knees, fallin on my knees,
Baby girl take me back please!
Knock Knock fallin on my knees, fallin on my knees,
Baby, baby girl take me back please!
Knock Knock fallin on my knees, fallin on my knees,
Baby girl take me back please!
Knock Knock fallin on my knees, fallin on my knees,
Baby, baby girl take me back please!
