Wake up right now  
I want you to open your eyes  
So you could see all the guys you have terrorized  
The way you walk and the way you shut us down we're  
done  
No one deserve this, welcome to heart breaker 101

When we started out  
Everything was cool  
Or at least I thought,  
It seems I'm just a fool  
If you wanted a song written about you  
Girl all you had to do was ask  
The way you walk and the way you shut us down we're  
done  
No one deserve this, welcome to heart breaker 101

Thanks for the wake up call now I can  
See the truth that you've been biting through  
Just so you could leave me hanging out to dry  
So you could be the death of me  
I've cut all ties we're through to save myself from you

There's no I in Love,  
But there's a "U" in Lust,  
And after what I've heard  
It's you I couldn't trust.  
I should have heeded the words that were spoken  
And said we should just be friends  
The way you walk and the way you shut us down we're  
done  
No one deserve this, welcome to heart breaker 101

Thanks for the wake up call now I can  
See the truth that you've been biting through  
Just so you could leave me hanging out to dry  
So you could be the death of me  
I've cut all ties we're through to save myself from you

Run while you can while you still have the slack  
The front may be pretty but the heart is still black

Now I see your true intentions  
Just one thing you forgot to mention

Thanks for the wake up call now I can  
See the truth that you've been biting through  
Just so you could leave me hanging out to dry  
So you could be the death of me  
I've cut all ties we're through to save myself from you
