

Seth Walker "In The Dark"

Visit "[In The Dark](#)" on MotoLyrics.com

If you know how this works
Won't you tell me please?
If you know how this thing works
Won't you tell me please?

Been in the dark for so long
I can hardly see

If you shed a little light
How grateful I would be
If you shed a little light on me
How grateful I would be

Been in the dark for so long
I can hardly see

When a woman says she loves you
That should be all you need
When a woman says she loves you
That should be all you need

Been in the dark for so long
The truth is hard to see
Hard to see
The truth is hard to see

Been in the dark for so long
Can hardly see

Can hardly see
Somebody help me
