Eyes in dusk, demons descend through the gloom  
Lightning cracks the red sky; shadows by the moon

Summon the lord with horns

With the voices of countless souls  
Thou shalt slay the earth  
Oh, lord of the darkest realm  
Bring me rebirth

Swept in black; alone I wait for your call  
Through the silent night sky, lightning touch the orb

Summon the night; and make it stay  
Horn crowned king; come guide my way  
Chaos roars; through the night  
Newborn world; slowly dies

Summon the lord with horns

Rise; darkness calls thee  
I stand to face thee

Dawn, this is the dusk at dawn  
Shadows walk the earth  
Spawn, I am unholy spawn  
Son of hell on earth

Rise, darkness calls thee  
I stand to face thee

Satan lord; bring me the wisdom eternal  
Infernal realm; dark one make me immortal  
Satan lord; angels burning in the fire  
Satanic arrival; no light shall ever remain
