So tell me what's the point of taking you on
It's safe to say that you are everything I'm not
Our situation leaves me bruised and broken
But old temptations keep on sucking me in
You're my medication, my spark to creation
My sole inspiration for the obvious reasons
The reason why I can't hold back any longer
You're a monster, you're a monster

I know, I know this time I'll make it on my own so here I
go
Wanna search for something more, something else
worth fighting for
I know, I know this time I'll make it on my own so here I
go
Wanna search for something so much more,
something else worth fighting for

You know, you know you've got a hold on me
You're wrapped around my world so inconspicuously
This situation's left me bruised and broken
Bound by the upperhand, over and over again
So pardon me for this interjection,
Your intention of deception is the last thing that I need
In fact, it's killing me, it's killing me

I know, I know this time I'll make it on my own so here I
go
Wanna search for something more, something else
worth fighting for
I know, I know this time I'll make it on my own so here I
go
Wanna search for something so much more,
something else worth fighting for
