And picture yourself knee deep in yukon's ice storm
(gracious)
It was a terrible intake of young street parallel driving
(so uncurved)
Maybe a don delillo world is a little too conceptual for
us
(intake)
Join the threads as the curved kiss melts hearts
(wise)
One more unknown theory and then we are dust
(sun)

Camouflage iris
Dance a while upset.
Aspire in height
Locate fragment one
Eyes swept iris
Eyes swept iris

Camouflage iris
(i can't stand it)
Dance a while upset!
(i can't stand it)
Aspire in height
(i can't stand it)
Dance a while upset!
(i can't stand it)
