I burn the pictures I hocked the ring I got a rid of  
everything  
That had the slightest chance to make a mem'ry  
reappear  
I sold the house now that's the last of things that link  
me to the past  
So how can you be gone if you were never here  
If you were never here I never loved you at all  
The past will be the future before a tear has time to fall  
The Salvation Army came and took the balance of your  
things  
So how can you be gone if you were never here  
[ steel ]  
If you were never here...
