

Seven System "Truth"

Visit "[Truth](#)" on MotoLyrics.com

We search for truth all life long
Day after day the same old song
We search for truth In brand new places
Reality stares In our faces
Chorus:
I've found the truth for me
I live in my reality
Even if it don't suit you
I've found my truth
We find the truth but turn to lies
To suit our greed and our pride
I know the truth it's in my heart
It's been evident from the start
Chorus:
I've found the truth for me
I live in my reality
Even if it don't suit you
I've found my truth
Research done
Line up your experiments
How can you dispute
My own experience
I've found my Truth
