You Hate my face, but now I look
you're gonna change me
A lashing from your tongue and now
you're gonna scorn me.
You Taste my blood, my cut my skin,
and now you want me.
You hate my face, but now I look
I think you changed me.
(Balls that pokken are whip lashed
Easily bitten within one ply)
Release Me
Release Me
My Time to fall
My face lays down
the ground where I once walked
No time to fall
My massive shield, my beating till,
you try and fleck me
Cry with shame my eyes are scorn
and then you dump me
(Easily bitten within one ply)
Release Me
Release Me
My Time to fall
My face lays down
the ground where I once walked
No time to fall
My faith lays down
the ground where I've been lost
(FALL)
I stare at my life again
I'm
I'm scared of my life again
(Scared of my life again)
I
I stare at my life again
(Stare at my life again)
I'm
I'm scared of my life again
My Time to fall
My face lays down

the ground that I once walked
My time to fall
My faith lays down
the ground where I've been lost
My Time to fall
My Fame lays down
No Time at all
(FALL)
I stare at my life again
I'm
I'm scared of my life again
(Scared of my life again)
I I I'm
I'm scared of my life again
(Scared of my life again)
I'm
I'm scared of my life again
(Scared of my life again)
I I I
I stare at my life again
(Stare at my life again)
