(Feel it)
Stop drop roll get up take a crack at me
(you look at me you look at me)
Like every other mother fucker that I've seen today
(you wanna hurt me like I've never been hurt right now)
Feel it (now-stop) come again (now)
Feel it (right-now)
Show me just one thing to help me make the day stop
moving (slowly)
Show me the only thing that'll make you stop
controlling
(then you'll see how-now)
Give up every second for the one shot left in me
(you look at me and now you see)
How I took the real from you fucker 'cause you had so
much to say
(you wanted me you got me right here right now)
Feel it (now-stop) drop again (now)
See it (right-now) I'm coming in
(why can't you just)
Show me just one thing to help me make the day
Stop moving (slowly)
Show me the only thing that'll make you stop
controlling
Why can't I just start over ?
It's like I'm rolling over
Don't wanna be the one to bleed (not me)
It's like I'm mourning over the death of me (no)
It's like I'm rolling over
Not me (not me)
Show me just one thing
To help me make the day stop moving (slowly)
Show me the only thing that'll make you stop
controlling
