Inside my shadow I can hear you am I near you
Inside my shadow I can smell you can I tell you
Inside my shadow I can love you think I need you
Inside my shadow I can feel you I've erased you

Am I real Am I real

Save my ruin In just my world has turn to rust

If there's tomorrow would you give me please forgive
me
If there's tomorrow you'd be buried and that just scares
me

Am I real

Save my ruin In just my world has turned to rust
