### 1st verse

I got your love! but now it's done what can I do now  
Except move on with my life hopin someone can show  
me how  
Cus now I'm scared to love again, I need a new friend  
A friend that I can love who'd be down with me  
whenever she can  
I use to listen to slowjams but now I really can't  
Cus so many girls been hurtin my feelins my emotions  
Leadin me on, got me feelin like I was dreamin  
I've been hurt so many times all I knew was I see me  
achin! I'm sayin,!  
I need some real love, someone whos forgivin  
Whenever I'm just makin one of those stupid decisions  
Someone whos down with me in any circumstances  
Who takes chances, my hearts been broken like tree  
branches  
I'm askin! what makes you think of myself,  
That I was tryin, cryin over you askin for the help  
I'm makin songs about you cus you know I'm really  
hurtin  
I know you understand what I'm goin thru cus your the  
girl I've been lovin

### Chorus

I got your love "not"  
I never loved a girl as much as I love you  
I got your love "not"  
You promise me you'll never leave me and I believed  
you  
I got your love "not"  
I hope you feel this song, I made it just for you  
I got your love "not"  
Your all I need in my life! come back to me! I need you

### 2nd verse

I always knew what I wanted but damn I took her for  
granted  
And if I can bring back the time this wouldve never  
ended  
And I'm tellin you, love can kill a person! you betta  
know it

Cuz what I've been feelin is hell  
I dwell over memories it's holding me back I fell  
So hard in love with a girl, thought she never leave a  
spell  
She left me broken scarred, yes I know that you can tell  
By the way I'm makin my songs, come on now I'm  
foreal  
I'm tellin you she's the only one who can heal  
Or maybe I'm better of dead so she can feel  
What I go through everysecond she aint around I tear  
Just thinkin about her and us I can't stop!  
Writing my lyrics composin this piece my teardrops  
On the paper, maybe I'll try to see her later  
Someone slap me, this aint forever, back then I was  
clever  
When it comes to relationships I was the one whos  
smarter  
But now damn I forgot who I am now to me some  
reason it's harder

#### Chorus

I got your love "not"  
I never loved a girl as much as I love you  
I got your love "not"  
You promise me youl never leave me and I believed  
you  
I got your love "not"  
I hope you feel this song, I made it just for you  
I got your love "not"  
Your all I need in my life! come back to me! I need you
