"Back In Time"

Visit "[Back In Time](#)" on MotoLyrics.com

Carry me away. Back in time to when I met You
Take all this guilt and shame
That buried me, and bury me in You

Chorus:

I want to be dead but still alive
I want to breathe hope instead of choking
I want to feel the fire deep inside
Burn through me and carry me away

How fake could I be? You see through me
You see right through me
Would You sing to me?
And take me back to when I met you

(Chorus)

I hear You calling me
I feel so far from home
You can see through my past
You've never let me go

(Chorus)
