Well I've been beat and I've been laughed at  
And I've been drugged through strings of pain  
And I've had people turn their back on me  
I have been called every name

And I've felt loneliness and hunger  
And I felt helpless and betrayed  
And all the hurtful things you've done to me  
You know my love has never changed

You drove the nails through my hand  
I never gave up on you  
You placed the thorns on my head  
But I'm right here with you  
I'm here with you

Well I took the sting of torture  
So you wouldn't feel the pain  
Well I was nailed upon a cross for you  
And child I'd do it all again

You drove the nails through my hand  
I never gave up on you  
You placed the thorns on my head  
But I'm right here with you  
I'm here with you

You drove the nails through my hand  
I never gave up on you  
You placed the thorns on my head  
But I'm right here with you  
I'm here with you
