How did I get so far from the promises I made?
Life it seems so dark compared to yesterday
Everything I had the gift that I received
Is slipping through my hands
Now it's only make believe

Chorus:

I'm fading away and I feel like I can't breathe
Tomorrow's gone. How long until I break?
I'm fading away and I'm trapped inside of me
Tomorrow's gone. How long until I break?

All the things I chose that slowly took Your place
Are laughing back at me and I can't make them go
away
My life is crashing down, another tragedy
Another broken dream, now it's only make believe

(Chorus)
