I close the door, soft so no one hears
As it creaks, I think about the years
This is where it started

I'm closer now, walking down these steps
Memory lane, it's all that I've got left
It leaves me broken hearted

The further that I go, I will always know

The ghost in me
Came alive on this lonely street
Deep inside I know you're here
Somehow you're here with me, with me

I turn around and take another glance
'Cause I know this is my last chance
My heart is slowly beating

Overwhelmed, the beauty shining through
I feel myself getting close to you
Even though I'm leaving

The further that I go, I will always know

The ghost in me
Came alive on this lonely street
Deep inside I know you're here
Somehow you're here with me, with me

I can't go back, I've gone too far
I'm closer now to where you are

The further that I go, I will always know

The ghost in me
Came alive on this lonely street
Deep inside I know you're here
Somehow you're here with me, with me

The ghost in me

Came alive on this lonely street
Deep inside I know you're here
Somehow you're here... with me

The ghost in me
Came alive on this lonely street
