slither around with a crown  
dress in white to fool the crowd  
venom spewed out of your mouth  
sugar coated it goes down  
broadcasting - your own creed  
on the inside you're full of greed  
glittering - dynasty - neo tower of babel  
praying on the weak and hungry  
you take all they have  
televise every single cry  
"donate now to dry your eyes"  
living the high life - other's can't live life  
where's your "prosperity"?  
you now sow what you will later reap  
and you are sowing poison seeds  
brood of vipers - den of robbers  
brood of vipers - the whip is braided  
brood of vipers - den of robbers

brood of vipers - get out of my fathers house  
greedy hearts - sleepless eyes  
your eyelids become the canvas of a horrid dream  
your guilt must tear at you - burn at you - drive you mad  
slither around with a crown  
dress in white to fool the crowd  
venom spewed out of your mouth  
sugar coated it goes down  
broadcasting - your own creed  
on the inside you're full of greed  
glittering - dynasty - neo tower that will BURN  
brood of vipers - den of robbers  
brood of vipers - the whip is braided  
brood of vipers - den of robbers  
brood of vipers - get out of my fathers house
