Falling forsaken through the dark  
Tic-tock time is ticking backwards  
Can't deny  
Watching a man spawned from a kiss  
Settle a coin toss for this odd loss

It's alright now they cannot hold me down  
Blinded eyes open before us  
- I just don't know why  
That the two were gone forever in time  
Open up my mind tonight  
Open up my eyes

When destiny calls I'm a man  
Who will rise above the fire  
Paradise - waits forever  
I won't apologize - from the shadows  
I rise to her warm embrace

When love hurts...  
I will always find a way to carry you  
Since we have the truth

Bothering visions I can see  
Left all alone inside this house  
Of fear and night  
Crying in the hallway on my knees...  
Battling a stranger who will change her

I'm alright now but I can't figure out  
The things I am feeling inside me

- I just had to cry  
And the love survived  
Through oceans of time  
Not one of us will leave tonight  
But only one will stay

When destiny calls I'm a man  
Who will rise above the fire  
In her eyes - destiny calls

I went beyond all lies - from the shadows  
I rise to her loving face

Is there someone there I feel so scared  
Playtime's over now  
I open the door and sit by the age-old mirror

Raise my head and stare into  
Broken eyes of another

I have found myself  
Locked in the both of them  
Hear me now,  
I'm throwing my bonds away!  
Throwing all my bonds away!
