Everyday, we stand, to fight.
Everyday we stand to fight
Gotta last just one more night
Tearing down these walls of hate
Carrying each other's weight.
Of the same mind, of the same heart.
Nothing here can tear us apart
Persecution and trials will come
But the battle's already been won. Been won.
Standing together
Side by side
Staying true to what's inside
United as one we fight
A true friend lays down his life.
When this world attacks stay on track.
I'm your brother; I've got your back.
Never lose heart (4x).
Holding close through the long suffering.
Thick as blood is the bond that ties us.
No one's better, No one's worse
Separation has been our curse
No one's better, No one's worse
Tear down these walls
Our lives are one.
Destroy your pride.
Discard your hate.
The time is now.
Tear down these walls, our lives are one.
