

Severed Head Of State "A Sacrament Of The Sick"

A sacrament of the sick... devoured in the bestial lust,
Engorged in the remnants of a war that every victor
lost.

A sacrament of the sick... ingested with devotion,
The blood of mercy stains the teeth of wolves in human
clothing.

An undying craving for death. And underhanded trick.
An undying trick They break our bodies and our
minds... a sacrament of the sick.

A sacrament of the sick...
A smoldering funeral pyre
A testament to the perverse.
A steadily spreading fire.

An undying craving for death. And underhanded trick.
An undying trick They break our bodies and our
minds... a sacrament of the sick.
