I walk safe in big blue arms / and sleep beneath the
missile's charm
His truth burns brightly through the night / our love will
cover the globe
(Five) ways to know him and his work
(Four) parts of the heart beat for him
(Three) Freedom his only goal
(Two) hearts, only one true
(One) man at the heart of industry
(Zero) No other choice
I walk safe in big blue arms / and close my heart to
those who harm
He's more than likely made mistakes / but his heart's in
the right place
