Hot on the heels of '78 / The wailing dance of the  
cardiac rate  
Break out lungs in ecstasy / the gross physique of  
devilry says,  
"Oh! When they play the music too slow  
My heart falls into the cold / and the ice has come  
again!"  
Take my future, take my hand / Take a turn in the  
promised land  
Host of quadrille, heel of fire / spirals down the  
steepest spire  
The spiral of hope and the noose of the rope and the  
draw of the blade
