

Severed Heads "Army"

Visit "[Army](#)" on MotoLyrics.com

I've got a friend who joined the army / She broke a wish
we made on blood
We saw the fighting in a movie / I walked out before the
end
C In a field of snow she holds her rifle
In the hills below the enemy hide
I've got a letter from a friend / She's got a husband and
a family
When we were young she had told me / she would fight
for her country--C
"Two women with opposing ideals and memories. I was
thinking of
Revolutionary Iran for some reason."
