Sing once, sing twice  
Call to America!  
Sing once, sing twice  
Call to America!  
My body is nature 10 but my heart's on the road  
Out in the snow somewhere.  
My body is nature 10 but my heart is lost  
Something never took a turn  
My body is nature 10 but my heart is gone  
There's life in the snow  
My body is nature 10 but my heart is lost  
Sing once, sing twice  
Call to America!  
"You can be physically there but still feel like bits have  
fallen off all  
Over the place."
