In the morning I'm the sun / In the evening I walk on
three legs
I've time to kill, some people as well
I've got a riddle that's giving me hell
Said you were young, said you were young
Said it was heaven just to breathe your air
But you haven't traveled until you've unraveled my
Taste test triangle tangle tango
C I can learn to live without my arms
(cashing foreign currencies)
I can learn to live without my arms
I'm (as) drunk as a judge / I spent my desire in the
wood
I've blood to spill and tale to tell
I've got a rhythm that comes from hell
Said you were smart, said you were smart
Said it would just take a day of your time
But you haven't traveled until you've unraveled my
Taste test triangle tangle tango--C
