Twister!) Down in the fields the bodies are lying in  
spirals  
Hanging from trees, they're clicking their heels to  
(Twister!)  
Down in the towns the water is brown with my taste  
Nutrasweet and nuclear waste  
C Yippee yi yay kiyay kiyay! / Disease is touring the  
U.S.A.  
and stopping at Denny's along the way  
A Texan nachos and the bubonic plague  
(Twister!) Down in the streets the cars are spinning in  
spirals  
Not surprising--there's no one driving  
(Twister!) East to West, the world is blessed with my  
fame  
A growing pain that's hard to explain--C  
(Twister!)  
Back at home the cold is growing, back at home  
(When I wanna hold you all I gotta do...)
