In cold blood  
The pressure expands as my mind explodes  
Thoughts control my actions, forced to bleed  
Infected with life, I seek my cure from death  
Gripping tighter on your neck  
I realize you're drowning in your own blood  
Drowning in your blood, I let go of your neck  
Death came faster than I would expect  
My emotions are expressed by your torture  
What came of me?  
How can I completely go insane and start killing  
Everything in sight?  
In cold blood  
The pressure expands as my mind explodes  
Thoughts control my actions, forced to bleed  
Infected with life  
Gripping tighter on your neck  
I realize you're drowning in your own blood  
Drowning in your blood, I let go of your neck  
Your death came faster than I would expect  
My emotions are expressed by your torture  
What came of me?  
How can I completely go insane and start killing?  
The pressure expands as my mind explodes  
Thoughts control my actions  
Infected with life, I seek my cure from death
