Oh you you've got this way  
Of always getting stuck in my head  
You're stuck in my head all day

When you've picked out your costume now  
Tonight you're wearing buns on your head,  
Got buns on your head, oh wow

If you wanna dress up like that princess from Alderaan  
I think you know I'd gladly be your man

I've got this same old hope  
That I could throw on a vest  
And you'd think I'm the best, but you won't

Cause when I walk in the door  
I really wanna tell you I care  
But I only stare at the floor

If you'd like to run away and get married  
We can live on Yavin 4  
Or we can live on the forest moon of Endor

If you wanna dress up like that princess from Alder-aan  
I think you know (I think you know) I'd gladly be your  
man  
I hope you know (I hope you know) I'd gladly be your  
man  
I hope you know (I hope you know) I'd gladly be your  
Han
